

Mini Melodies Daycare

Hazard Protection Plan

I would like to assure you of our concern here at Mini Melodies, for the safety and welfare of the children in our Home Daycare. We are pleased that you trust the care of your child/children in our hands. We will, daily, implement the number of safety precautions we have set in place.

Safety is of course our number one priority. Our home is child proof; and it has been inspected by the Department of Children and Family Services (DCFS). I am licensed in CPR and First Aid.

No child will ever be left alone at any time. We have a complete First Aid Kit, which is always in reach. All fire extinguishers, smoke detectors, and carbon monoxide detectors work and are tested monthly. All electrical sockets are covered.

We have many things to keep the children busy indoors and out. We will take nature walks, as well as visiting our neighborhood parks. The children will always be accompanied by an adult staff member watching them making sure that the environment is safe.

TRAFFIC

Every homeowner in our neighborhood had their own garage way and the streets are extremely wide so there is always plenty of parking.

CONSTRUCTION

If there happens to be construction in the neighborhood, I will let you know in advance.

BODIES OF WATER

There are no swimming pools, rivers, or lakes in a mile radius of the day care, so you don't have to worry about water being accessible to your child.

NEIGHBORHOOD DOGS

If we so happen to see an unleashed or stray dog, we will call animal control (which will be in speed dial) and calmly return to the house making sure the children are well protected all the way. We will always have cell phone and emergency numbers for your children with us on all outings. Please make sure that these numbers are current. There are no pets on the premises.

BACKYARD

Children will be always supervised while playing in the backyard.

OPEN STAIRS

The stairs in our home are blocked for the safety of the kids.

CHEMICALS/CLEANING MATERIALS

There are no chemicals in the reach of the children. They are stored in a safe place out of the reach of children.

KITCHEN UTENSILS

There are no sharp utensils or objects in the reach of the children. They are stored in a safe place out of the reach of children.

TOOLS AND GARDEN EQUIPMENT

All our garden tools and garden equipment are stored and locked up in the garage out of reach of children.

When enrolling your child/children, you must list emergency contacts and persons that are allowed to pick up your little ones. It is very important to keep this list of numbers and people updated. A person not on your pickup list will not be allowed to remove the child from my care under any circumstances without the permission of the parent and valid photo id.

We make sure we keep our daycare clean. We wipe down toys, cots, table, and chairs daily. We make sure we wash all sheets and blankets weekly. We also make sure we wash our hands regularly to keep diseases, infection, and germs at a minimum.

The purpose of sharing this information with you is not caused to worry, but to reassure you that both my assistant and I am prepared to handle all types of emergencies in a way that will ensure the safety of your child/children.

NO SMOKING, NO FIREARMS

No smoking is allowed in the daycare at any time.

No handguns or firearms are allowed in the daycare.

All staff must have their required immunizations. MMR and TDAP.
